Measures to “Gambling Addiction” Problem

2

- Addiction to Gambling ▪ ▪ ▪ many researches in various countries.(but not many significant researches in Japan.)
- The New Law about Gambling Addiction measure does not consider Lottery(& Similar item)/toto as the cause of the addiction.
- The New Law indicates an objective direction only ; no concrete action is required.
- First , need a data of this country(because the existence of Pachinko/Pachi-slot).

Process of Gambling Addictions

—6 steps—

Entry Levy

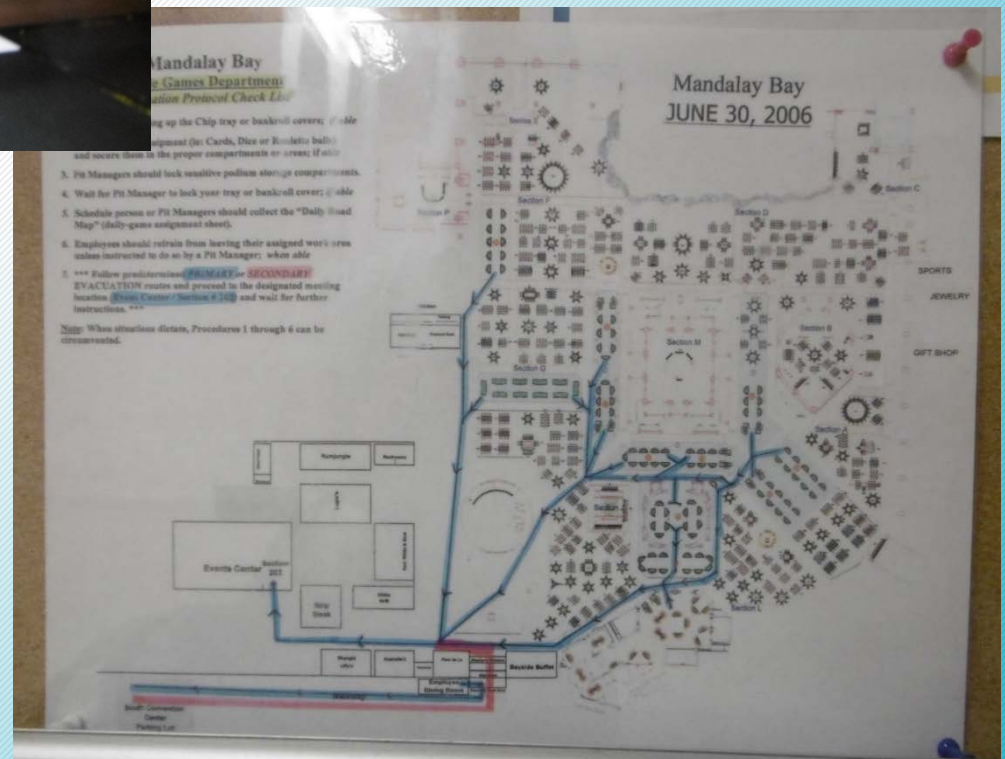

4

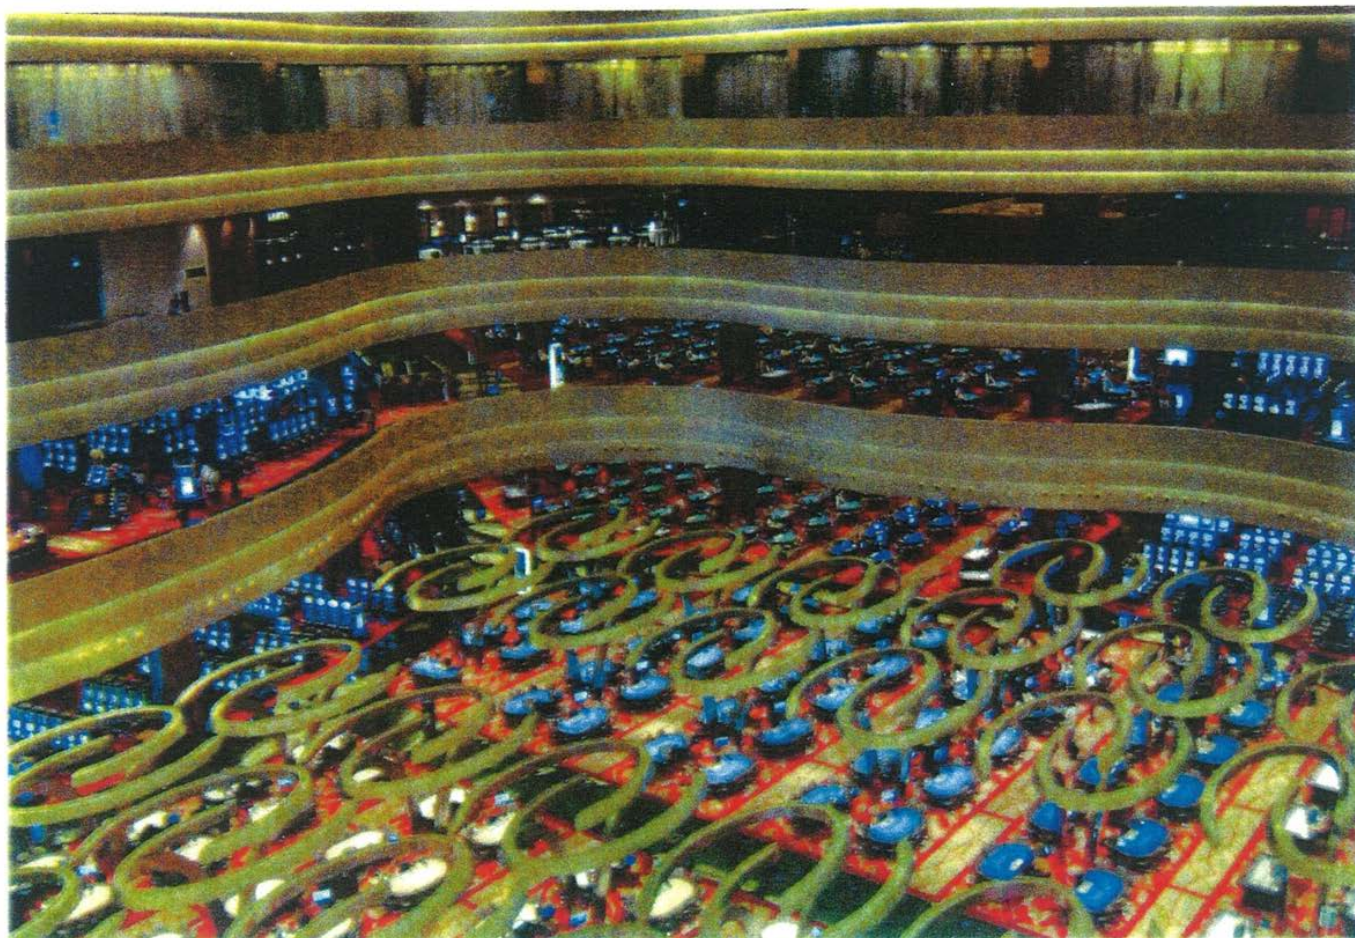

- ¥ 6,000 ; is it too expensive?
———— Entry Fee of TDL & USJ
- no conclusive research evidence to decide a price of entry levy.
- Personally , I feel ¥ 6,000 is expensive.

Floor Space for Casino Gaming

5

- 3% or less of all the planned space
- how to count the floor space of gaming?
- “15,000m² for MBS” is very big, indeed

Credit & Deposit

8

- dept to multiple financial institutions
- Gambling enhance Addiction?
- credit for Japanese — to only wealthy individual
- discretion of operators

A New Industry named “IR”

9

- Paradigm-Shift of tourism
 - break away from “88places circulation style” journey
- job description ▪ ▪ ▪ 900⁺
 - 1/3 of them are new to Japan
- Vitalization of the local economy
 - % of goods supplied by the local area
