【FYI】 The Urban Agriculture World Summit to be held next year !

In Nerima City, farming has been penetrating into the citizens’ life. There are farmlands throughout the city and the citizens regard agriculture as an industry, which is worldwide rare case and is highly significant. It is the characteristic of Nerima that the citizens can lead a good life, enjoying closeness to agriculture. Thus we host the Urban Agriculture World Summit from Fri., November 29th to Sun., December 1st in 2019, so that we could disseminate domestically and internationally the benefits and possibilities of the cities where agriculture penetrates. We will kindly invite the governmental officers, farmers and researchers of New York, London, Jakarta, Seoul and Toronto where the citizens engage characteristically and proactively in urban agriculture. And we will hold international conferences for exchanging opinions and learning from each other through their introductions of urban agriculture initiatives.
